

REMORTGAGING

Before searching for your ideal new mortgage, there are several things it would be wise to consider

People look to remortgage for many reasons, some to save money and others to find a more suitable or flexible deal than they currently have. A lot of people also consider raising money at the same time as remortgaging.

If you are looking to raise money for home improvements, remortgaging may make sense if you can afford the new payments, providing the improvements increases the value of your home in the long term.

If you have several debts and are struggling with the repayments, you may choose to remortgage in order to get the money to clear these debts. If you are considering remortgaging to consolidate debts, think very carefully before doing this, as your home will be at risk if you fail to meet the repayments.

If your home has increased in value during the period of your mortgage, you might be able to borrow more through 'equity release'. This could give you cash for a car, holiday or other spending, but make sure you can afford to keep up with the new payments. Also remember your mortgage loan will increase but not the value of your property.

It makes sense that the lower the interest rate, the lower your monthly payments will be, so we can compare what you are paying on your current mortgage with other deals available.
